

Physics for You : Teacher Support CD-ROM

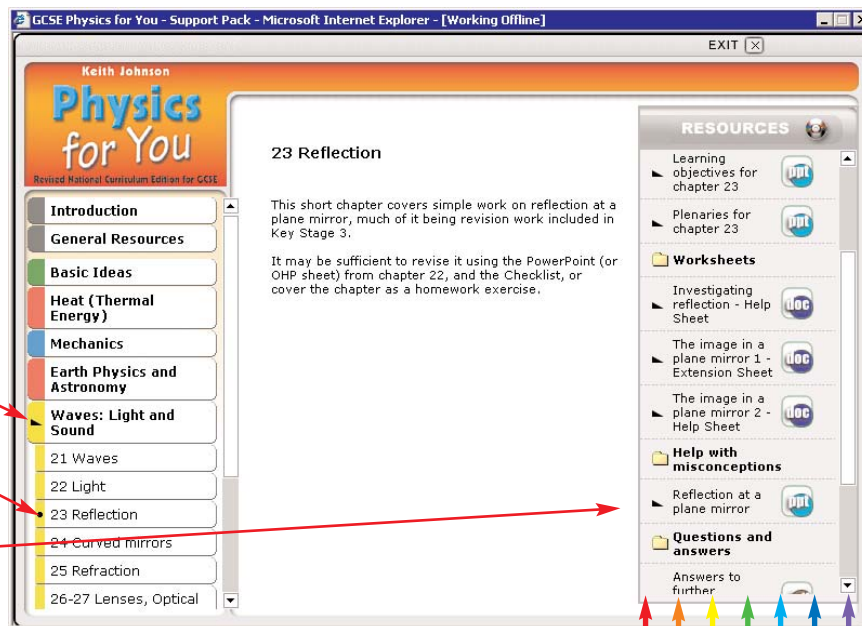

This CD-ROM includes over 650 files of useful resources to support and focus your teaching. The files are grouped by the chapters in *Physics for You*.

The main screen gives you easy access to whichever file you want to use.

Click on the section you want...

...and then on the chapter you want.

Hundreds of resources at the click of your mouse

The 650 resources include:

Materials from the printed Teacher Support Pack

The Student Maps, Checklists, Revision Quizzes, the Technician Cards, all the Help Sheets and Extension Sheets are on this CD ...but now they are editable. If you wish you can tailor any of these sheets (in MS Word) to your needs.

Learning Objectives, and Plenaries

For each topic there are PowerPoints of Learning Objectives (revealed one click at a time) and Plenary questions, to focus your teaching.

Diagrams

Over 100 full-colour diagrams are provided, taken straight from the *Physics for You* Students' Book.

Now you can project them on-screen as part of your teaching, and even use them in your own worksheets if you wish.

Help with Misconceptions

Key concepts have been tackled with Flash animations and animated PowerPoints for you to use at the click of your mouse. These help you to focus and clarify topics where students often have misconceptions.

ICT activities

A wide variety of additional ICT activities in Excel, PowerPoint and Word – for you to use in your teaching, or for your students to use in school or at home.

Questions and Answers

Questions and answers are provided as animated PowerPoints, and also as Word files, for you to adapt if you wish.

Summaries

A PowerPoint Summary for each chapter – good for revision.
