

Timetable transfer

Inputting a completed timetable into your chosen software solutions

Transferring from a timetable

Project overview

MIST Services understands that schools have their preferred timetabling solutions, but not all MIS systems play nicely with different timetabling software!

As the timetable is so integral to the MIS, MIST Services will manually copy your completed timetable into the software solution that works with your MIS. Ultimately this means all the timetabling structures are created in the correct format and the school will have a timetable they can maintain throughout the year.

Timings

- Dates to be confirmed as appropriate, although would suggest late July or August to ensure the school timetable is complete
- MIST Services require up to 10 working days from the date of receiving the timetable information

Considerations

- The timetable file should ideally use the teacher codes as used by your school MIS
- The timetable file should ideally use the department/subject codes as used by your school MIS
- The timetable file should ideally use the room codes as used by your MIS
- If the codes don't match, a list preferably in Excel to demonstrate the mappings will be required.
- This is a one off transfer so any further changes are implemented by the establishment.
- The transfer should only be done when the timetable is completed!

Transferring from a timetable

Pricing

Timetable type	Cost if in timetabling software	Cost if in Excel or paper
Transfer of one-week timetable ^(*1)	£1250 +vat	£1495 +vat
Transfer of two-week timetable ^(*1)	£1750 +vat	£1995 +vat

(*1) – For up to seven year groups, extra year groups charged at £150 +vat

- Date the final timetable will be sent to MIST Services

School name
